@ WARRAWINDI FARMS

# WELCOME

The bull selling season has quickly come upon us and this year's draft of bulls is one of the most consistent we have bred yet. The team at Warrawindi Farms has decided NOT to hold a 2020 bull sale, but to offer all bulls at our on property field day on the 10th of February, 2020. This will give all clients the chance to purchase the right bull for their program with the help of our team. Whatever your program, whether it's black or apricot, high yielding or early maturing, we have the bull to suit your cows.

Our stud cattle numbers have decreased in the past couple of years due to the purchases of two new sheep studs. Only the best females are staying in the herd to breed the best, most profitable stock we can. We will have 20 of our best Limousin bulls on offer. The first sons of Morrisvale Kept Secret are some real standouts along with the reliable Wulfs Yonkers sons. All bulls are polled with a handful being homozygous polled.

From the team at Warrawindi Farms we look forward to seeing you at our on property beef field day.

# SALE INFORMATION

**SA BEEF FIELD DAYS** - Monday, 10th of February, 2020 at Warrawindi Farms, 1371 Casterton Road, Penola, South Australia from 9am to 5pm. Refreshments and nibbles provided throughout the day. All bulls have been semen tested and vaccinated with 7in1, B12 and Multimin. J-BAS 6. PIC-SA160047.

**OUR GUARANTEE** - All animals come with a 12 month guarantee. If the bull proves to be infertile or incapable of natural service, providing the problem is not caused by injury incurred since taking delivery. Any claims must be accompanied by veterinary certificate.

## UNDERSTANDING EBVS

An Estimated Breeding Value (EBV) is an estimate of the genetic merit of that animal for each trait measured. EBVs are provided for the following traits.

ADVERAGE EBVs for 2017 BORN LIMOUSIN CALVES

BWT	Milk	200Wt	400Wt	600Wt	Scrotal	CarWt	EMA	Rib fat	RBV	Doc
+1.6	+6	+19	+32	+44	+1.0	+28	+1.4	+0.0	+0.6	+39

**Birth Weight EBV:** this EBV indicates the genetic potential for birth weight. Positive EBVs indicate higher birth weights and negative EBVs indicate lower birth weights of progeny.

**Milk EBV:** an important component of fast growth to weaning is the dam's maternal performance. A bull with high milk EBV should produce daughters that milk well.

**Accuracies:** They are presented with each EBV and give an indication of the amount of information that has been used in the calculation of that EBV. The higher the accuracy the lower the likelihood of change in the animals EBVs.

**200, 400 & 600 Day Weight EBVs:** these EBVs give us an estimation of the animals genetic potential for growth to the various ages.

**Docility EBV:** the docility EBV is expressed as they increase or decrease in the percentage of progeny that will be scored as docile (score 1 or 2). Postitive EBVs indicate a higher proportion of progeny that will be scored as docile and negative EBVs indicate a lower percentage of progeny being scored as docile.

**Comparing EBVs:** The EBVs for Limousins cannot be compared to other breeds. They should be compared with the current average EBV for the Limousin breed shown.

# PHOENIX P26

## WARRAWINDI PHOENIX P26

Tattoo: DJGPP26      Born: 13/03/2018      Grade: Pure  
 Colour: Apricot      Horn: Homo Polled      Proto: (PF)

TMF ARIZONA  
 SIRE: MORRISVALE KEPT SECRET  
 MARYVALE DEW DROP

STEVENS MOONWALKER  
 DAM: WARRAWINDI EXOTIC E1417  
 WARRAWINDI A214

December 2019 Southern Limousin Group Breedplan EBV's

BWT	Milk	200Wt	400Wt	600Wt	Scrotal	CarWt	EMA	Rib fat	RBV	Doc
+2.6	+7	+25	+48	+63	+1.3	+36	+1.9	0.0	+0.9	+43
70%	45%	67%	66%	71%	63%	52%	39%	46%	40%	58%

Notes: A lot of sire appeal about this bull. His polled head, long body and deep muscle through is hind quarter makes him an eye catcher. Structurally perfect and walks on great feet and legs. Homozygous polled. Top 5% for 400day weight.

# POCKET ROCKET P8

## WARRAWINDI POCKET ROCKET P8
